

TIME AND ATTENDANCE SOLUTION

HORIO WEB

HOROMECA SOLUTIONS

HORIO Web attendance module is a comprehensive way to achieve accuracy and efficiency in all employee activities for payroll purposes. The system gathers all attendance data and combined with pre-set work agreements, calculates, in realtime, working hours for payroll calculation. The employee can view and update his/her reports, while the manager can view and approve the data of employees in predetermined levels. You can simultaneously enjoy the benefits of **5 types of terminals**:
